Forward Looking Statements

This presentation includes “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements often include words such as “believe,” “expect,” “anticipate,” “estimate,” and “intend” or future or conditional verbs such as “will,” “would,” “should,” “could,” or “may.” Forward-looking statements are not historical facts but instead represent management’s current expectations and forecasts regarding future events many of which are inherently uncertain and outside of our control. Actual results may differ, possibly materially from those currently expected or projected in these forward-looking statements. Factors that could cause our actual results to differ materially from those described in the forward-looking statements, include expected cost savings, synergies and other financial benefits from the recent acquisitions and the pending acquisition of 10 branch banking operations of Bank of America (“acquisitions”) might not be realized within the expected time frames or at all, and costs or difficulties relating to integration matters might be greater than expected; increased competitive pressures; changes in the interest rate environment; changes in general economic conditions and conditions within the securities markets; legislative and regulatory changes; and other factors described in HomeTrust’s latest annual Report on Form 10-K and Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission-which are available on our website at www.hometrustedbanking.com and on the SEC’s website at www.sec.gov. Any of the forward-looking statements that we make in this presentation or our SEC filings are based upon management’s beliefs and assumptions at the time they are made and may turn out to be wrong because of inaccurate assumptions we might make, because of the factors illustrated above or because of other factors that we cannot foresee. We do not undertake and specifically disclaim any obligation to revise any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements. These risks could cause our actual results for fiscal 2015 and beyond to differ materially from those expressed in any forward-looking statements by, or on behalf of, us and could negatively affect our operating and stock performance.
