The in-house transitioning of the SBA loan servicing process is expected to generate an additional \$1.2 million in pre-tax net revenue annually. In the fourth quarter of fiscal year 2021, the Company incurred \$19.0 million in pre-tax prepayment penalties related to the \$275 million retirement of Federal Home Loan Bank advances and expects to recognize non-recurring pre-tax expenses of approximately \$1.5 million attributed to the branch closures.

HomeTrust Bancshares, Inc. Announces Profitability Improvement Plan and Balance Sheet Restructuring

Asheville, N.C., June 15, 2021 – HomeTrust Bancshares, Inc. (NASDAQ: HTBI) (the “Company”), the holding company of HomeTrust Bank (the “Bank”), today announced its plans to further improve profitability by closing nine bank branches and restructuring its balance sheet with the prepayment of its remaining long-term borrowings. In addition, beginning July 1, 2021, the Bank will bring its back-office Small Business Administration (“SBA”) loan servicing process in-house, which is expected to provide additional servicing fee and gain on sale income.

“We believe these strategic initiatives, along with the continued maturity of our diversified lines of business, will move us forward in achieving higher profitability and creating additional shareholder value in the near term,” said Dana Stonestreet, Chairman, President, and Chief Executive Officer.

Summary Expected Financial Impact

Estimated Annual Pre-Tax Income Increase of \$10.1 million

- Branch closures – \$3.2 million in expense reductions
- Payoff of remaining \$275 million of longer-term borrowings, for a total of \$475 million in early retirements of long-term debt since March 2021 – \$5.7 million in interest expense reductions
- Additional SBA income – \$1.2 million

Estimated Future Annual Financial Impact

- Return on assets increase of approximately 20 basis points
- Return on equity increase of approximately 200 basis points
- Diluted earnings per share increase of approximately 47 cents

Branch Closures

The Bank plans to close nine branches in North Carolina, Tennessee, and Virginia, which represents 22% of its total branch footprint and will reduce operating expenses and provide additional company-wide efficiencies. As a result of these closures, the Company expects to record a total pre-tax charge of approximately \$1.5 million for costs

associated with impacted employees, impairment of an operating lease asset, the write-down of branch facilities, and other net costs, during the fourth quarter of fiscal year 2021.

The branch closures are expected to occur in September 2021, subject to applicable regulatory requirements. Employees at each of these branches will be employed until closure and are eligible to apply for open positions with priority consideration at other HomeTrust Bank offices.

The branch closures are part of the Company's ongoing strategic initiatives to respond to changing customer preferences and to improve the financial performance of the Company. The Bank expects to service customers of the closed branches through its remaining network of 32 branches and digital banking services.

Balance Sheet Restructuring and SBA In-House Servicing

On June 14, 2021, the Company paid off its remaining \$275 million in long-term borrowings of Federal Home Loan Bank ("FHLB") advances. In connection therewith, the Company incurred \$19.0 million in pre-tax prepayment penalties. These longer-term FHLB advances had a weighted average interest rate of 1.81% and maturities ranging between March and November 2028. The Company estimates a pre-tax annual savings of approximately \$4.5 million resulting from this prepayment. Including the \$200 million of FHLB advances prepaid at the end of March 2021, the Company estimates a total pre-tax annual savings from early retirements of long-term debt of approximately \$5.7 million, which is expected to result in a combined prepayment penalty earn-back period of approximately 3.6 years. The Company funded most of the prepayments using excess liquidity generated from increases in deposits.

Beginning July 1, 2021, the Bank plans to bring its back-office SBA loan servicing process in-house, which is designed to provide additional servicing fee and gain on sale income. The Bank continues to grow this revenue source since beginning its SBA lending line of business in September 2017 to originate SBA 7(a) and USDA B&I loans and then selling the guaranteed portion at a gain. The Company estimates additional pre-tax net revenue of approximately \$1.2 million annually with this transition, which is expected to increase over time as the Company's SBA servicing portfolio grows.
