### **1. Summary of Significant Accounting Policies**

The consolidated unaudited financial statements presented in this report include the accounts of HomeTrust Bancshares, Inc., a Maryland corporation (“HomeTrust”), and its wholly-owned subsidiary, HomeTrust Bank (the “Bank”). As used throughout this report, the term the “Company” refers to HomeTrust and its consolidated subsidiary, unless the context otherwise requires. HomeTrust is a bank holding company primarily engaged in the business of planning, directing and coordinating the business activities of the Bank. The Bank is a North Carolina state chartered bank and provides a wide range of retail and commercial banking products within its geographic footprint, which includes: North Carolina (the Asheville metropolitan area, the “Piedmont” region, Charlotte and Raleigh/Cary), South Carolina (Greenville and Charleston), East Tennessee (Kingsport/Johnson City and Morristown), Southwest Virginia (the Roanoke Valley) and Georgia (Greater Atlanta). The Company operates under a single set of corporate policies and procedures and its operations are considered to be aggregated in one reportable operating segment for financial reporting purposes.

As a result of its merger with Quantum on February 12, 2023, HomeTrust became the 100% successor owner of the Quantum Capital Statutory Trust II Delaware trust. The sole assets of the trust represent the proceeds of offerings loaned in exchange for subordinated debentures with similar terms to the trust preferred securities.

The accompanying unaudited consolidated financial statements have been prepared in accordance with US GAAP for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X as promulgated by the SEC. Accordingly, they do not include all the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and results of operations for the periods presented have been included. It is recommended that these unaudited interim consolidated financial statements be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024 (“2024 Form 10-K”) filed with the SEC on March 13, 2025. The results of operations for the six months ended June 30, 2025 are not necessarily indicative of results that may be expected for the fiscal year ending December 31, 2025, the period which will be covered on a Report on Form 10-K.

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements. Various elements of the Company’s accounting policies, by their nature, are inherently subject to estimation techniques, valuation assumptions and other subjective assessments. In particular, management has identified the determination of the provision and the ACL on loans as an accounting policy that, due to the judgments, estimates and assumptions inherent in the policy, is critical to an understanding of the Company’s financial statements. This policy and the related judgments, estimates and assumptions are described in greater detail in the notes to the Consolidated Financial Statements and Management’s Discussion and Analysis of Financial Condition and Results of Operations (Critical Accounting Policies and Estimates) in the 2024 Form 10-K. Management believes that the judgments, estimates and assumptions used in the preparation of the financial statements are appropriate based on the factual circumstances at the time. However, given the sensitivity of the financial statements to this critical accounting policy, the use of other judgments, estimates and assumptions could result in material differences in the Company’s results of operations or financial condition. Further, subsequent changes in economic or market conditions could have a material impact on these estimates and the Company’s financial condition and operating results in future periods.

*Reclassifications and corrections.* To maintain consistency and comparability, certain amounts from prior periods have been reclassified to conform to current period presentation with no effect on net income or stockholders’ equity as previously reported.

### **2. Recent Accounting Pronouncements**

#### ***Newly Issued but Not Yet Effective Accounting Standards***

*ASU 2023-09, “Income Taxes (Topic 740): Improvements to Income Tax Disclosures.”* In December 2023, the FASB issued ASU 2023-09 which requires entities to disclose more detailed information in the reconciliation of their statutory tax rate to their effective tax rate. The ASU also requires entities to disclose more detailed information about income taxes paid, including by jurisdiction. This ASU is effective for public business entities for annual reporting periods beginning after December 15, 2024. The Company will update its income tax disclosures upon adoption of the ASU.

*ASU 2024-03, “Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.”* In November 2024, the FASB issued ASU 2024-03 which requires entities to disclose more detailed information about certain costs and expenses related to purchases of inventory, employee compensation, depreciation and intangible asset amortization among other items. This ASU is effective for public business entities for annual reporting periods beginning after December 15, 2026 and interim periods beginning after December 15, 2027. The adoption of the provisions of ASU 2024-03 is not expected to have an impact on the Company’s financial results, but will impact disclosures.

### **3. Branch Sales**

On May 23, 2025, the Company completed the sale of the Bank’s two branches located in Knoxville, Tennessee, to a third party financial institution. Through the transaction, the Company sold \$34.3 million of deposits along with \$6.3 million in branch premises and equipment, while HomeTrust retained all loans associated with the branches. The Company recorded a \$1.4 million pre-tax gain associated with the transaction.

The total number of securities with unrealized losses at June 30, 2025 and December 31, 2024 were 135 and 168, respectively.

Management evaluates securities for impairment where there has been a decline in fair value below the amortized cost basis of a security to determine whether there is a credit loss associated with the decline in fair value on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. All debt securities available for sale in an unrealized loss position as of June 30, 2025 continue to perform as scheduled and management does not believe that there is a credit loss or that a provision for credit losses is necessary. Also, as part of management's evaluation of its intent and ability to hold investments for a period of time sufficient to allow for any anticipated recovery in the market, management considers its investment strategy, cash flow needs, liquidity position, capital adequacy and interest rate risk position. Management does not currently intend to sell the securities within the portfolio and it is not more-likely-than-not that securities will be required to be sold. See "Note 1 – Summary of Significant Accounting Policies" in our 2024 Form 10-K for further discussion.

Management continues to monitor all of its securities with a high degree of scrutiny. There can be no assurance that management will not conclude in future periods that conditions existing at that time indicate some or all of its securities may be sold or would require a charge to earnings as a provision for credit losses in such periods.

Management excludes the accrued interest receivable balance from the amortized cost basis in measuring ECLs on investment securities and does not record an ACL on accrued interest receivable. As of June 30, 2025 and December 31, 2024, the accrued interest receivable for debt securities available for sale was \$548 and \$606, respectively.

#### 5. Loans Held For Sale

Loans held for sale, at the lower of cost or fair value, consist of the following as of the dates indicated:

Allowance for credit losses - loans	(44,139)	(45,285)
<b>Loans, net</b>	<b>\$ 3,627,812</b>	<b>\$ 3,603,014</b>

(1) At June 30, 2025 and December 31, 2024 accrued interest receivable of \$15,893 and \$17,569, respectively, was accounted for separately from the amortized cost basis.

All qualifying one-to-four family loans, HELOCs, multifamily, commercial real estate loans and FHLB of Atlanta stock are pledged as collateral by a blanket pledge to secure outstanding FHLB advances.

Loans are made to the Company's executive officers, directors and their associates during the ordinary course of business. No balance was outstanding on loans to these related parties as of either June 30, 2025 or December 31, 2024. In relation to these loans, unfunded commitments totaled approximately \$3 at both June 30, 2025 and December 31, 2024, respectively.

Loans are monitored for credit quality on a recurring basis and the composition of the loans outstanding by credit quality indicator is provided below. Loan credit quality indicators are developed through review of individual borrowers on an ongoing basis. Generally, loans are monitored for performance on a quarterly basis with the credit quality indicators adjusted as needed. The indicators represent the rating for loans as of the date presented based on the most recent assessment performed. These credit quality indicators are defined as follows:

**Pass** – A pass rated loan is not adversely classified because it does not display any of the characteristics for adverse classification.

**Special Mention** – A special mention loan has potential weaknesses that deserve management's close attention. If left uncorrected, such potential weaknesses may result in deterioration of the repayment prospects or collateral position at some future date. Special mention loans are not adversely classified and do not warrant adverse classification.

**Substandard** – A substandard loan is inadequately protected by the current net worth and paying capacity of the obligor, or of the collateral pledged, if any. Loans classified as substandard generally have a well-defined weakness, or weaknesses, that jeopardize the liquidation of the debt. These loans are characterized by the distinct possibility of loss if the deficiencies are not corrected.

**Doubtful** – A loan classified as doubtful has all the weaknesses inherent in a loan classified substandard with the added characteristic that the weaknesses make collection or liquidation in full highly questionable and improbable, on the basis of currently existing facts, conditions and values.

**Loss** – Loans classified as loss are considered uncollectible and of such little value that their continuing to be carried as a loan is not warranted. This classification is not necessarily equivalent to no potential for recovery or salvage value, but rather that it is not appropriate to defer a full write-off even though partial recovery may be effected in the future.

On September 26, 2024, Hurricane Helene made landfall causing significant property damage across certain parts of the Company's market areas, particularly in Western North Carolina. In an effort to assist customers in their post-Hurricane Helene recovery and clean-up efforts, in the fourth quarter of the year ended December 31, 2024 we granted payment deferrals of up to six months to provide short-term relief to impacted customers. The outstanding balance of these deferrals was \$18.9 million and \$136.0 million at June 30, 2025 and December 31, 2024, respectively.

Modifications to Borrowers Experiencing Financial Difficulty

The Company modifies loans to borrowers experiencing financial difficulty by providing principal forgiveness, a term extension, an other-than-insignificant payment delay or interest rate adjustments. In some cases, the Company provides multiple types of modifications on one loan. Typically, one type of modification, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another modification, such as principal forgiveness, may be granted. For loans included in the combination columns in the table below, multiple types of modifications have been made on the same loan within the current reporting period.

The following tables present the amortized cost basis of loans that were both experiencing financial difficulty and modified during the periods indicated, by class and type of modification. The percentage of the amortized cost basis of loans that were modified to borrowers in financial difficulty as compared to the amortized cost basis of each class of financing receivable is also presented. The Hurricane Helene-related deferrals previously referenced did not meet this definition and, therefore, were not included.

Off-Balance Sheet Credit Exposure

The Company maintains a separate reserve for credit losses on off-balance sheet credit exposures, including unfunded loan commitments, which is included in other liabilities on the consolidated balance sheet. The reserve for credit losses on off-balance sheet credit exposures is adjusted as a provision for credit losses in the consolidated statement of income. The estimate includes consideration of the likelihood that funding will occur and an estimate of ECLs on commitments expected to be funded over its estimated life, utilizing the same models and approaches for the Company's other loan portfolio segments described above, as these unfunded commitments share similar risk characteristics as its loan portfolio segments. The Company has identified the unfunded portion of certain lines of credit as unconditionally cancellable credit exposures, meaning the Company can cancel the unfunded commitment at any time. No credit loss estimate is reported for off-balance sheet credit exposures that are unconditionally cancellable by the Company or for undrawn amounts under such arrangements that may be drawn prior to the cancellation of the arrangement. At June 30, 2025 and December 31, 2024, the ACL on off-balance sheet credit exposures included in other liabilities was \$3,330 and \$2,672, respectively.

**7. Premises and Equipment**

Premises and equipment as of the dates indicated consist of the following:

	June 30, 2025	December 31, 2024
Land	\$ 23,378	\$ 25,818
Office buildings	68,537	75,450

Less: accumulated depreciation	(49,522)	(51,276)
<b>Premises and equipment, net</b>	<u>\$ 62,706</u>	<u>\$ 69,872</u>

As noted in "Note 3 – Branch Sales", the majority of the changes between periods can be traced to the sale of \$6,310 of premises and equipment associated with our two Knoxville, Tennessee branches during the six months ended June 30, 2025. The assets were sold at their carrying balance so no gain or loss was recognized on the sale.

The carrying balance of premises and equipment held for sale, at the lower of cost or fair value, was \$616 at both June 30, 2025 and December 31, 2024.

Depreciation expense associated with premises and equipment was \$1,905 and \$1,859 for the six months ended June 30, 2025 and 2024, respectively.

Certificates of deposit with balances of \$250 or greater totaled \$167,181 and \$168,089 at June 30, 2025 and December 31, 2024, respectively. Generally, deposit amounts in excess of \$250 are not federally insured.

**9. Borrowings**

*Junior Subordinated Debentures*

On February 21, 2007, Quantum formed a Connecticut statutory trust, Quantum Capital Statutory Trust II (the "Trust"), which issued \$11,000 of trust preferred securities that were designed to qualify as Tier I capital under Federal Reserve Board guidelines. All of the common securities of the Trust were owned by Quantum. The proceeds from the issuance of the common securities and the trust preferred securities were used by the Trust to purchase \$11,341 of junior subordinated debentures of Quantum. As a result of its merger with Quantum on February 12, 2023, HomeTrust became the 100% successor owner of the Trust.

The trust preferred securities accrue and pay quarterly distributions at a floating rate of 3-month Term SOFR plus 2.20%, which was 6.49% at June 30, 2025. The Company has guaranteed distributions and other payments due on the trust preferred securities to the extent the Trust has insufficient funds with which to make the distributions and other payments. The net combined effect of all documents entered into in connection with the trust preferred securities is that the Company is liable to make the distributions and other payments required on the trust preferred securities.

The trust preferred securities are mandatorily redeemable upon maturity of the debentures on March 15, 2037, or upon earlier redemption as provided in the indenture. The debentures purchased by the Trust have been redeemable, in whole or in part, since March 15, 2012. As specified in the indenture, if the debentures are redeemed prior to maturity, the redemption price will be the principal amount and any accrued but unpaid interest.

*Other Borrowings*

Borrowings, outside of junior subordinated debt, consist of the following at the dates indicated:

	June 30, 2025		December 31, 2024	
	Balance	Weighted Average Rate	Balance	Weighted Average Rate
FHLB advances (short-term)	\$ 35,000	4.57 %	\$ —	— %
FRB advances (short-term)	230,000	4.50	188,000	4.50
<b>Total other borrowings</b>	<b>\$ 265,000</b>	<b>4.51 %</b>	<b>\$ 188,000</b>	<b>4.50 %</b>

All qualifying one-to-four family loans, HELOCs, commercial real estate loans, multifamily loans and FHLB of Atlanta stock are pledged as collateral to secure outstanding FHLB advances while commercial construction loans, indirect auto loans, and equipment and municipal leases are pledged as collateral to secure outstanding FRB advances. At June 30, 2025 and December 31, 2024, the Company had the ability to borrow \$386,775 and \$315,468, respectively, through additional FHLB advances and \$2,772 and \$106,592, respectively, through the unused portion of a line of credit with the FRB.

At both June 30, 2025 and December 31, 2024, the Company maintained revolving lines of credit with three unaffiliated banks which totaled \$165,000, all of which was unused.

**10. Leases**

*As Lessee - Operating Leases*

The Company's operating leases primarily include office space and bank branches. Certain leases include one or more options to renew, with renewal terms that can extend the lease term up to 15 additional years. The exercise of lease renewal options is at management's sole discretion. When it is reasonably certain that the Company will exercise our option to renew or extend the lease term, that option is included in estimating the value of the ROU and lease liability. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants. Most of the Company's lease agreements include periodic rate adjustments for inflation. The depreciable life of ROU assets and leasehold improvements are limited to the shorter of the useful life or the expected lease term. Leases with an initial term of 12 months or less are not recorded on the Company's Consolidated Balance Sheet. The Company recognizes lease expenses for these leases over the lease term.

The following tables present supplemental balance sheet information related to operating leases. ROU assets are included in other assets and lease liabilities are included in other liabilities.

<b>Supplemental balance sheet information</b>	<b>June 30, 2025</b>	<b>December 31, 2024</b>

*As Lessor - General*

The Company leases equipment to commercial end users under operating and finance lease arrangements. The Company's equipment finance leases consist mainly of construction, transportation, healthcare and manufacturing equipment. Many of its operating and finance leases offer the lessee the option to purchase the equipment at fair value or for a fixed purchase option, and most of the leases that do not have a purchase option include renewal provisions resulting in some leases continuing beyond initial contractual terms. The Company's leases do not include early termination options, and continued rent payments are due if leased equipment is not returned at the end of the lease.

*As Lessor - Operating Leases*

Operating lease income is recognized as a component of noninterest income on a straight-line basis over the lease term. Lease terms range from one to seven years. Assets related to operating leases are included in other assets and the corresponding depreciation expense is recorded on a straight-line basis as a component of other noninterest expense. The net book value of leased assets totaled \$29,508 and \$31,572 with a residual value of \$13,907 and \$13,662 as of June 30, 2025 and December 31, 2024, respectively.

*As Lessor - Financing Leases*

Finance lease income is recognized as a component of loan interest income over the lease term. The finance leases are included as a component of the equipment finance class of financing receivables under the commercial loan segment of the loan portfolio. For the three months ended June 30, 2025 and 2024, interest income on equipment finance leases totaled \$1,283 and \$1,113, respectively. For the six months ended June 30, 2025 and 2024, interest income on equipment finance leases totaled \$2,501 and \$2,167, respectively.

The lease receivable component of finance lease net investment included within the equipment finance class of financing receivables was \$73,172 and \$70,420 at June 30, 2025 and December 31, 2024, respectively.

The following schedule summarizes, as of June 30, 2025, aggregate future minimum finance lease payments to be received:

**11. Equity Incentive Plan**

The Company historically provided stock-based awards through the 2013 Omnibus Incentive Plan, which provided for awards of restricted stock, restricted stock units, stock options, stock appreciation rights and cash awards to directors, directors emeritus, officers, employees and advisory directors. On November 14, 2022, at the Company's annual meeting, stockholders approved the 2022 Omnibus Incentive Plan which provides for the same types of awards as described under the 2013 Omnibus Incentive Plan. Going forward, any future grants will be made under this plan.

The cost of equity-based awards under the 2022 Omnibus Incentive Plan generally is based on the fair value of the awards on their grant date. The maximum number of shares that may be utilized for awards under the plan is 1,000,000. Shares of common stock issued under the plan will be issued out of authorized but unissued shares, some or all of which may be repurchased shares.

The table below presents share-based compensation expense and the estimated related tax benefit for stock options and restricted stock for the periods indicated:

<b>Net income per share - diluted</b>	<u>\$ 1.00</u>	<u>\$ 0.73</u>	<u>\$ 1.84</u>	<u>\$ 1.61</u>

Potential dilutive shares are excluded from the computation of earnings per share if their effect is anti-dilutive. There were 109,450 stock options that were anti-dilutive as of June 30, 2024. No stock options were anti-dilutive as of June 30, 2025.

**13. Commitments and Contingencies**

**Loan Commitments** – Legally binding commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. In the normal course of business, there are various outstanding commitments to extend credit that are not reflected in the consolidated financial statements.

The table below presents details of loan commitments outstanding as of the dates indicated:

	June 30, 2025	December 31, 2024
Variable rate commitments	\$ 44,832	\$ 56,922
Fixed rate commitments <sup>(1)</sup>	43,794	28,096
Total loan commitments	<u>\$ 88,626</u>	<u>\$ 85,018</u>
Range of fixed interest rates	4.46% - 10.25%	4.14% - 10.25%
Undisbursed portions of construction loans	\$ 210,845	\$ 145,523
Pre-approved but unused lines of credit <sup>(2)</sup>	\$ 797,133	\$ 712,274

(1) Fixed rate commitments had terms ranging from three to 30 years as of each date presented.

(2) Principally second mortgage home equity loans and overdraft protection loans.

The commitments presented in the above table represent the Company's exposure to credit risk and, in the opinion of management, have no more than the normal lending risk that the Company commits to its borrowers.

The Company has two types of commitments related to certain one-to-four family loans held for sale: rate lock commitments and forward loan commitments. Rate lock commitments are commitments to extend credit to a customer that has an interest rate lock and are considered derivative instruments. The rate lock commitments do not qualify for hedge accounting. In order to mitigate the risk from interest rate fluctuations, the Company enters into forward loan sale commitments such as TBAs, mandatory delivery commitments with investors, or best efforts forward sale commitments with investors. The fair value of these interest rate lock commitments was not material at June 30, 2025 or December 31, 2024.

**Equity Investment Commitments** – As of June 30, 2025, the Company had committed \$32,000 across ten SBIC investments with \$10,855 remaining to be drawn, while as of December 31, 2024, the Company had committed \$28,000 across nine SBIC investments with \$8,598 remaining to be drawn. Similarly, as of June 30, 2025, the Company had committed \$10,000 towards a solar tax equity investment with \$9,817 remaining to be drawn. No such commitment existed as of December 31, 2024. Although the remaining capital commitments may or may not be called in the future, under the terms of the associated agreements, the Company's exposure will not extend beyond the amount of the original commitments.

**Guarantees** – Standby letters of credit obligate the Company to meet certain financial obligations of its customers, if, under the contractual terms of the agreement, the customers are unable to do so. The financial standby letters of credit issued by the Company are irrevocable and payment is only guaranteed upon the borrower's failure to perform its obligations to the beneficiary. Total commitments under standby letters of credit as of June 30, 2025 and December 31, 2024 were \$53,877 and \$53,226, respectively. There was no liability recorded for these letters of credit at June 30, 2025 or December 31, 2024.

Notes to Consolidated Financial Statements  
(Dollars in thousands, except per share data)

**Litigation** – From time to time, the Company is involved in litigation matters in the ordinary course of business. These proceedings and the associated legal claims are often contested, and the outcome of individual matters is not always predictable. These claims and counter claims typically arise during the course of collection efforts on problem loans or with respect to actions to enforce liens on properties in which the Company holds a security interest. The Company is not a party to any pending legal proceedings that management believes would have a material adverse effect on the Company's financial condition or results of operations.

**14. Fair Value of Financial Instruments**

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of valuation methodologies used for assets recorded at fair value. As of both June 30, 2025 and December 31, 2024, the Company did not have any liabilities recorded at fair value.

The methods of determining the fair value of assets and liabilities presented in this note are consistent with the methodologies disclosed in Note 20 of the 2024 Form 10-K.

**Financial Assets Recorded at Fair Value**

The following table presents financial assets measured at fair value on a recurring basis at the dates indicated:

	June 30, 2025

<b>Debt securities available for sale</b>				
MBS, residential	\$ 137,585	\$ —	\$ 137,585	\$ —

<b>Loans held for sale</b>	\$ 4,144	\$ —	\$ 4,144	\$ —

Debt securities available for sale are valued on a recurring basis at quoted market prices where available. If quoted market prices are not available, fair values are based on quoted prices of comparable securities. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange or U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter markets and money market funds. Level 2 securities include MBS and debentures issued by GSEs, municipal bonds and corporate debt securities. The Company has no Level 3 securities.

Loans held for sale carried at fair value are valued at the individual loan level using quoted secondary market prices.

There were no transfers between levels during the six months ended June 30, 2025 or 2024.

A loan is considered to be collateral dependent when, based on current information and events, the Company expects repayment of the financial assets to be provided substantially through the operation or sale of the collateral and the Company has determined that the borrower is experiencing financial difficulty as of the measurement date. For real estate loans, the fair value of the loan's collateral is determined by a third-party appraisal, which is then adjusted for the estimated selling and closing costs related to liquidation of the collateral (typically ranging from 8% to 12% of the appraised value). For this asset class, the actual valuation methods (income, sales comparable or cost) vary based on the status of the project or property. Additional discounts of 5% to 15% may be applied depending on the age of the appraisals. The unobservable inputs may vary depending on the age of the appraisals. The unobservable inputs may vary depending on the individual asset with no one of the three methods being the predominant approach. For non-real estate loans, the fair value of the loan's collateral may be determined using an appraisal, net book value per the borrower's financial statements or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation and management's expertise and knowledge of the customer and customer's business.

The Company had off-balance sheet financial commitments, which included approximately \$1,150,482 and \$996,042 of commitments to originate loans, undisbursed portions of construction loans, unused lines of credit and standby letters of credit at June 30, 2025 and December 31, 2024, respectively (see "Note 13 – Commitments and Contingencies"). Since these commitments are based on current rates, the carrying amount approximates the fair value.

**15. Subsequent Event**

On July 4, 2025, President Trump signed into law the legislation formally titled "An Act to Provide for Reconciliation Pursuant to Title II of H. Con. Res. 14" commonly referred to as the One Big Beautiful Bill. The Corporation is currently evaluating the income tax implications of the bill, but does not expect it to have a material impact on the Corporation's financial statements.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Forward-Looking Statements

Certain matters in this Form 10-Q constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to our financial condition, results of operations, plans, objectives, future performance or business. Forward-looking statements are not statements of historical fact, but instead are based on certain assumptions and are generally identified by use of the words "believes," "expects," "anticipates," "estimates," "forecasts," "intends," "plans," "targets," "potentially," "probably," "projects," "outlook" or similar expressions or future or conditional verbs such as "may," "will," "should," "would" and "could." Forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, assumptions and statements about future economic performance and projections of financial items. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated or implied by our forward-looking statements.

The factors that could result in material differentiation include, but are not limited to:

- the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write offs and changes in our ACL and provision for credit losses that may be impacted by deterioration in the housing and commercial real estate markets;
- changes in general economic conditions, both nationally and in our market areas;
- the potential imposition of new or increased tariffs or changes to existing trade policies that could affect economic activity or specific industry sectors;
- natural disasters, including the lingering effects of Hurricane Helene;
- changes in the levels of general interest rates, and the relative differences between short- and long-term interest rates, deposit interest rates, our net interest margin and funding sources and the effects of inflation or a potential recession;
- fluctuations in the demand for loans, the number of unsold homes, land and other properties and fluctuations in real estate values in our market areas;
- decreases in the secondary market for the sale of loans that we originate;
- expected revenues, cost savings, synergies and other benefits from our merger and acquisition activities might not be realized to the extent anticipated, within the anticipated time frames, or at all, costs or difficulties relating to integration matters, including but not limited to customer and employee retention, might be greater than expected, and goodwill impairment charges might be incurred;
- results of examinations of us by the Federal Reserve, the NCCOB or other regulatory authorities, including the possibility that any such regulatory authority may, among other things, require us to increase our ACL, write-down assets, increase our regulatory capital position or affect our ability to borrow funds or maintain or increase deposits, which could adversely affect our liquidity and earnings;
- changes in laws or regulations, changes in regulatory policies and principles or the application or interpretation of laws and regulations by regulatory agencies and tax authorities, including changes in deferred tax asset and liability activity, and the interpretation of regulatory capital or other rules;
- the availability of resources to address changes in laws, rules or regulations, or to respond to regulatory actions;
- our ability to attract and retain deposits;
- our ability to access cost-effective funding and maintain sufficient liquidity;
- management's assumptions in determining the adequacy of the ACL;
- our ability to control operating costs and expenses, especially costs associated with our operation as a public company;
- the use of estimates in determining the fair value of certain assets, which estimates may prove to be incorrect and result in significant declines in valuation;
- difficulties in reducing risks associated with the loans on our balance sheet;
- staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our workforce and potential associated charges;
- disruptions, security breaches or other adverse events, failures or interruptions in, or attacks on, our information technology systems or on the third-party vendors who perform several of our critical processing functions;
- our ability to retain key members of our senior management team;
- costs and effects of litigation, including settlements and judgments;

## Critical Accounting Policies and Estimates

Certain of our accounting policies are important to the portrayal of our financial condition, since they require management to make difficult, complex or subjective judgments, some of which may relate to matters that are inherently uncertain. Estimates associated with these policies are susceptible to material changes as a result of changes in facts and circumstances which could include, but are not limited to, changes in interest rates, changes in the performance of the economy and changes in the financial condition of borrowers. The following represents our critical accounting policy:

**Allowance for Credit Losses, or ACL, on Loans.** The ACL on loans held for investment reflects our estimate of credit losses that will result from the inability of our borrowers to make required loan payments. We charge off loans against the ACL and subsequent recoveries, if any, increase the ACL when they are recognized. We use a systematic methodology to determine our ACL for loans held for investment and certain off-balance-sheet credit exposures. The ACL on loans held for investment is a valuation account that is deducted from the amortized cost basis to present the net amount expected to be collected on the loan portfolio. The estimate of our ACL on loans held for investment involves a high degree of judgment including consideration of the effects of past events, current conditions and reasonable and supportable forecasts on the collectability of the loan portfolio. We recognize in net income the amount needed to adjust the ACL on loans held for investment and certain off-balance-sheet credit exposures for management's current estimate of ECLs. Our ACL on loans held for investment is calculated using collectively evaluated and individually evaluated loans.

### GAAP Reconciliation of Non-GAAP Financial Measures

We believe the non-GAAP financial measures included within this report provide useful information to management and investors that is supplementary to our financial condition, results of operations and cash flows computed in accordance with US GAAP; however, we acknowledge that our non-GAAP financial measures have a number of limitations. The following reconciliation tables provide detailed analyses of these non-GAAP financial measures.

Set forth below is a reconciliation to US GAAP of tangible book value and tangible book value per share:

(Dollars in thousands, except per share data)	June 30, 2025	March 31, 2025	June 30, 2024
Total stockholders' equity	\$ 579,274	\$ 565,449	\$ 523,628
Less: goodwill, core deposit intangibles, net of taxes	38,477	38,793	40,063

Tangible equity to tangible assets	11.91 %	11.65 %	10.44 %

(1) Tangible equity (or tangible book value) is equal to total stockholders' equity less goodwill and core deposit intangibles, net of related deferred tax liabilities.

### Comparison of Results of Operations for the Three Months Ended June 30, 2025 and March 31, 2025

**Net Income.** Net income totaled \$17.2 million, or \$1.00 per diluted share, for the three months ended June 30, 2025 compared to \$14.5 million, or \$0.84 per diluted share, for the three months ended March 31, 2025, an increase of \$2.7 million, or 18.4%. Results for the three months ended June 30, 2025 benefited from a \$1.3 million increase in net interest income and a \$2.1 million increase in noninterest income due to a \$1.4 million gain on the sale of two branch locations. Details of the changes in the various components of net income are further discussed below.

**Net Interest Income.** The following table presents the distribution of average assets, liabilities and equity, as well as interest income earned on average interest-earning assets and interest expense paid on average interest-bearing liabilities. All average balances are daily average balances. Nonaccruing loans have been included in the table as loans carrying a zero yield.

(1) Average loans receivable balances include loans held for sale and nonaccruing loans.

(2) Average other interest-earning assets consist of FRB stock, FHLB stock, SBIC investments and deposits in other banks.

(3) Net interest income divided by average interest-earning assets.

(4) Tax-equivalent results include adjustments to interest income of \$431 and \$418 for the three months ended June 30, 2025 and March 31, 2025, respectively, calculated based on a combined federal and state tax rate of 24%.

Total interest and dividend income for the three months ended June 30, 2025 did not vary significantly when compared to the three months ended March 31, 2025. Regarding the components of this income, loan interest income increased \$1.8 million, or 3.1%, primarily due to an increase in yield on loans and an additional day in the current quarter, which was partially offset by a \$1.7 million, or 52.3%, decrease in other investments and interest-bearing deposits income, mainly due to a \$1.0 million, or 78.9%, decrease in SBIC investment income where significant investment appreciation was recognized in the prior quarter. Accretion income on acquired loans of \$1.0 million and \$322,000 was recognized during the same periods, respectively, and was included in interest income on loans.

Total interest expense for the three months ended June 30, 2025 decreased \$1.3 million, or 6.3%, compared to the three months ended March 31, 2025. The decrease was primarily the result of a decline in the average balance of certificate accounts, specifically brokered deposits, and a decline in the average cost of funds across funding categories.

The following table shows the effects that changes in average balances (volume), including the difference in the number of days in the periods compared, and average interest rates (rate) had on the interest earned on interest-earning assets and interest paid on interest-bearing liabilities:

(Dollars in thousands)	Increase / (Decrease) Due to		Total Increase / (Decrease)

**Provision for Credit Losses.** The provision for credit losses is the amount of expense that, based on our judgment, is required to maintain the ACL at an appropriate level under the current expected credit losses model.

The following table presents a breakdown of the components of the provision for credit losses:

(Dollars in thousands)	Three Months Ended		\$ Change	% Change
	June 30, 2025	March 31, 2025		
<b>Provision for credit losses</b>				
Loans	\$ 1,385	\$ 800	\$ 585	73 %
Off-balance-sheet credit exposure	(82)	740	(822)	(111)
<b>Total provision for credit losses</b>	<b>\$ 1,303</b>	<b>\$ 1,540</b>	<b>\$ (237)</b>	<b>(15)%</b>

For the quarter ended June 30, 2025, the "loans" portion of the provision for credit losses was the result of the following, offset by net charge-offs of \$2.0 million during the quarter:

- \$0.3 million benefit driven by changes in the loan mix.
- \$1.6 million benefit due to changes in qualitative adjustments, partially offset by a slight worsening of the projected economic forecast, specifically the national unemployment rate. Of note, we released the \$2.2 million qualitative allocation previously established for the potential impact of Hurricane Helene upon our loan portfolio which had been established in the quarter ended September 30, 2024. Any residual impact of the Hurricane is believed to have now been reflected elsewhere within the ACL calculation.
- \$1.3 million increase in specific reserves on individually evaluated loans.

For the quarter ended March 31, 2025, the "loans" portion of the provision for credit losses was the result of the following, offset by net charge-offs of \$1.3 million during the quarter:

- \$0.6 million benefit driven by changes in the loan mix.
- A slight improvement in the projected economic forecast, specifically the national unemployment rate, was offset by changes in qualitative adjustments.
- \$0.1 million increase in specific reserves on individually evaluated loans.

For the quarter ended June 30, 2025, the amount recorded for off-balance-sheet credit exposure was the result of an increase in the balance of loan commitments offset by changes in the projected economic forecast and qualitative allocation as outlined above. For the quarter ended March 31, 2025, the amount recorded for off-balance-sheet credit exposure was the result of an increase in the balance of loan commitments and changes in the loan mix and projected economic forecast as outlined above.

**Noninterest Income.** Noninterest income for the three months ended June 30, 2025 increased \$2.1 million, or 26.5%, when compared to the quarter ended March 31, 2025. Changes in the components of noninterest income are discussed below:

(Dollars in thousands)	Three Months Ended		\$ Change	% Change
	June 30, 2025	March 31, 2025		
<b>Noninterest income</b>				
Service charges and fees on deposit accounts	\$ 2,502	\$ 2,244	\$ 258	11 %

<b>Total noninterest income</b>	<b>\$ 10,157</b>	<b>\$ 8,027</b>	<b>\$ 2,130</b>	<b>27 %</b>

- *Gain on sale of loans held for sale:* The increase was primarily driven by sales of the guaranteed portion of SBA commercial loans during the period. There were \$7.3 million in sales of the guaranteed portion of SBA commercial loans with gains of \$570,000 for the current quarter compared to \$4.6 million sold and gains of \$366,000 for the prior quarter. There were \$108.8 million of HELOCs originated for sale which were sold during the current quarter with gains of \$954,000 compared to \$89.4 million sold with gains of \$1.1 million in the prior quarter. There were \$30.3 million of residential mortgage loans sold for gains of \$558,000 during the current quarter compared to \$18.8 million sold with gains of \$473,000 in the prior quarter. Our hedging of mandatory commitments on the residential mortgage loan pipeline resulted in a net gain of \$27,000 for the current quarter compared to a net gain of \$13,000 for the prior quarter.
- *Operating lease income:* The increase was primarily the result of a reduction in losses recognized on the sale of previously leased equipment. We recognized net losses of \$358,000 and \$745,000 during the three months ended June 30, 2025 and March 31, 2025, respectively.
- *Gain on sale of branches:* On May 23, 2025, we completed the previously announced sale of our two Knoxville, Tennessee branches, recognizing a gain of \$1.4 million. The gain was primarily the result of a premium received on the deposits assumed by the purchasing institution, partially offset by expenses associated with the transaction.

**Noninterest Expense.** Noninterest expense for the three months ended June 30, 2025 increased \$294,000, or 0.9%, when compared to the three months ended March 31, 2025. Changes in the components of noninterest expense are discussed below:

(Dollars in thousands)	Three Months Ended		\$ Change	% Change
	June 30, 2025	March 31, 2025		
<b>Noninterest expense</b>				
Salaries and employee benefits	\$ 18,208	\$ 17,699	\$ 509	3 %

<b>Total noninterest expense</b>	<b>\$ 31,255</b>	<b>\$ 30,961</b>	<b>\$ 294</b>	<b>1 %</b>

- *Computer services:* At the end of the prior calendar year, we finalized the multiyear renewal of our largest core processing contract. The decrease in expense quarter-over-quarter is a reflection of the improved vendor pricing negotiated through this effort.
- *Other:* The change was driven by an increase in loan workout expenses in addition to smaller increases across several other expense categories.

**Income Taxes.** The amount of income tax expense is influenced by the amount of pre-tax income, tax-exempt income, changes in the statutory rate and the effect of changes in valuation allowances maintained against deferred tax benefits. The effective tax rates for the three months ended June 30, 2025 and March 31, 2025 were 21.2% and 21.1%, respectively.

#### Comparison of Results of Operations for the Six Months Ended June 30, 2025 and June 30, 2024

**Net Income.** Net income totaled \$31.7 million, or \$1.84 per diluted share, for the six months ended June 30, 2025 compared to \$27.5 million, or \$1.61 per diluted share, for the six months ended June 30, 2024, an increase of \$4.3 million, or 15.5%. The results for the six months ended June 30, 2025 were positively impacted by a \$3.2 million increase in net interest income, a decrease of \$2.6 million in the provision for credit losses and a \$1.3 million increase in noninterest income, partially offset by a \$1.6 million increase in noninterest expense. Details of the changes in the various components of net income are further discussed below.

**Net Interest Income.** The following table presents the distribution of average assets, liabilities and equity, as well as interest income earned on average interest-earning assets and interest expense paid on average interest-bearing liabilities. (2) Average other interest-earning assets consist of FRB stock, FHLB stock, SBIC investments and deposits in other banks.

(3) Net interest income divided by average interest-earning assets.

(4) Tax-equivalent results include adjustments to interest income of \$849 and \$704 for the six months ended June 30, 2025 and June 30, 2024, respectively, calculated based on a combined federal and state tax rate of 24%.

Total interest and dividend income for the six months ended June 30, 2025 decreased \$1.5 million, or 1.2%, compared to the six months ended June 30, 2024, which was driven by a \$3.1 million, or 2.5%, decrease in interest income on loans, partially offset by a combined \$1.6 million, or 23.5%, increase in interest income on debt securities available for sale and other interest-earning assets. Accretion income on acquired loans of \$1.3 million and \$1.4 million was recognized during the same periods, respectively, and was included in interest income on loans. The overall decrease in average yield on interest-earning assets was mainly the result of a decline in average balances, specifically for the loan portfolio where we continue to be focused on prudent loan growth.

Total interest expense for the six months ended June 30, 2025 decreased \$4.7 million, or 10.5%, compared to the six months ended June 30, 2024. The change was primarily the result of a decrease in the average balance of borrowings in addition to the cost of funds across all funding sources.

The following table shows the effects that changes in average balances (volume), including the difference in the number of days in the periods compared, and average interest rates (rate) had on the interest earned on interest-earning assets and interest paid on interest-bearing liabilities:

(Dollars in thousands)	Increase / (Decrease) Due to		Total Increase / (Decrease)

**Provision for Credit Losses.** The following table presents a breakdown of the components of the provision for credit losses:

(Dollars in thousands)	Six Months Ended		\$ Change	% Change
	June 30, 2025	June 30, 2024		
<b>Provision for credit losses</b>				
Loans	\$ 2,185	\$ 5,445	\$ (3,260)	(60)%
Off-balance-sheet credit exposure	658	(20)	678	3,390
<b>Total provision for credit losses</b>	<b>\$ 2,843</b>	<b>\$ 5,425</b>	<b>\$ (2,582)</b>	<b>(48)%</b>

For the six months ended June 30, 2025, the "loans" portion of the provision for credit losses was the result of the following, offset by net charge-offs of \$3.3 million during the period.

- \$0.9 million benefit driven by changes in the loan mix.
- \$1.6 million benefit due to changes in qualitative adjustments, partially offset by a slight worsening of the projected economic forecast, specifically the national unemployment rate. Of note, we released the \$2.2 million qualitative allocation previously established for the potential impact of Hurricane Helene upon our loan portfolio which had been established in the quarter ended September 30, 2024. Any residual impact of the Hurricane is believed to have now been reflected elsewhere within the ACL calculation.
- \$1.4 million increase in specific reserves on individually evaluated loans.

For the six months ended June 30, 2024, the "loans" portion of the provision for credit losses was the result of the following, in addition to net charge-offs of \$4.9 million during the period:

- \$1.3 million benefit due to changes in the projected economic forecast, specifically the national unemployment rate, and changes in qualitative adjustments.
- \$1.8 million increase in specific reserves on individually evaluated loans which was proportional to the increase in the associated loan balances which increased from \$8.1 million to \$16.3 million during the six month period, concentrated in the equipment finance and SBA portfolios.

For the six months ended June 30, 2025 and June 30, 2024, the amounts recorded for off-balance-sheet credit exposure were the result of changes in the balance of loan commitments, loan mix and projected economic forecast as outlined above.

**Noninterest Income.** Noninterest income for the six months ended June 30, 2025 increased \$1.3 million, or 7.4%, when compared to the same period last year. Changes in the components of noninterest income are discussed below:

(Dollars in thousands)	Six Months Ended		\$ Change	% Change
	June 30, 2025	June 30, 2024		
<b>Noninterest income</b>

Gain on sale of loans held for sale	4,017	3,285	732	22
BOLI income	1,694	2,642	(948)	(36)
Operating lease income	3,255	3,450	(195)	(6)
Gain on sale of branches	1,448	—	1,448	100
Gain (loss) on sale of premises and equipment	28	(9)	37	411

<b>Total noninterest income</b>	<b>\$ 18,184</b>	<b>\$ 16,924</b>	<b>\$ 1,260</b>	<b>7 %</b>

- *Gain on sale of loans held for sale:* The increase in the gain on sale of loans held for sale was primarily driven by HELOCs and residential mortgage loans sold during the period. During the six months ended June 30, 2025, there were \$198.2 million of HELOCs sold during the current period for gains of \$2.0 million compared to \$40.7 million sold and gains of \$473,000 for the corresponding period in the prior year. There were \$49.1 million of residential mortgage loans originated for sale which were sold with gains of \$1.0 million compared to \$36.6 million sold with gains of \$667,000 for the corresponding period in the prior year. There were \$11.9 million of sales of the guaranteed portion of SBA commercial loans with gains of \$936,000 compared to \$25.6 million sold and gains of \$2.1 million for the corresponding period in the prior year. Our hedging of mandatory commitments on the residential mortgage loan pipeline resulted in a net gain of \$40,000 for the six months ended June 30, 2025 versus a net loss of \$3,000 for the six months ended June 30, 2024.
- *BOLI income:* The decrease was due to \$1.1 million in tax-free gains on death benefit proceeds in excess of the cash surrender value of the policies recognized in the prior period, partially offset by higher yielding policies as a result of restructuring the portfolio at the end of the prior calendar year.
- *Gain on sale of branches:* As discussed earlier, during the current period we completed the previously announced sale of our two Knoxville, Tennessee branches, recognizing a gain of \$1.4 million in the current period.

**Noninterest Expense.** Noninterest expense for the six months ended June 30, 2025 increased \$2.1 million, or 3.6%, when compared to the same period last year. Changes in the components of noninterest expense are discussed below:

(Dollars in thousands)	Six Months Ended		\$ Change	% Change
	June 30, 2025	June 30, 2024		
<b>Noninterest expense</b>

Operating lease depreciation expense	3,657	3,565	92	3
Telephone, postage and supplies	1,107	1,165	(58)	(5)
Marketing and advertising	894	1,251	(357)	(29)

Core deposit intangible amortization	926	1,329	(403)	(30)
Other	8,562	7,580	982	13
<b>Total noninterest expense</b>	<b>\$ 62,216</b>	<b>\$ 60,619</b>	<b>\$ 1,597</b>	<b>3 %</b>

- *Salaries and employee benefits:* The increase was primarily the result of increases in both pay and incentive compensation.
- *Computer services:* As discussed earlier, the decrease in expense year-over-year is a reflection of the improved vendor pricing associated with the multiyear renewal of our largest core processing contract.
- *Marketing and advertising:* The decrease was the result of a reduction in spending in the six months ended June 30, 2025 when compared to the same period of the prior year, as we re-evaluated our marketing strategy for future periods.
- *Core deposit intangible amortization:* The intangible recorded associated with the Quantum merger is being amortized on an accelerated basis, so the rate of amortization slowed year-over-year.
- *Other:* The increase period-over-period was driven by increases of \$274,000 in losses on the sale repossessed equipment, \$234,000 in community association banking deposit line of business referral fees, and \$224,000 in consulting fees.

**Income Taxes.** The amount of income tax expense is influenced by the amount of pre-tax income, tax-exempt income, changes in the statutory rate and the effect of changes in valuation allowances maintained against deferred tax benefits. The effective tax rate was 21.1% for both the six months ended June 30, 2025 and June 30, 2024.

#### Comparison of Financial Condition at June 30, 2025 and December 31, 2024

**General.** Total assets decreased by \$17.4 million to \$4.6 billion and total liabilities decreased by \$44.9 million to \$4.0 billion, respectively, at June 30, 2025 as compared to December 31, 2024. These changes can be traced to the use of the proceeds of both loan sales and the maturities

of debt securities and certificates of deposit to fund loan growth. Total deposits declined by \$113.0 million over the same period. The decrease was mainly the result of a reduction in brokered deposits of \$96.5 million and \$34.3 million of deposits which were assumed by the purchaser of our two Knoxville, Tennessee branches. Borrowings increased by \$77.0 million to provide additional liquidity.

**Cash and Cash Equivalents.** Total cash and cash equivalents increased \$18.0 million, or 6.4%, to \$297.2 million at June 30, 2025 from \$279.2 million at December 31, 2024.

**Debt Securities Available for Sale.** Debt securities available for sale decreased \$8.1 million, or 5.3%, to \$143.9 million at June 30, 2025 from \$152.0 million at December 31, 2024.

**Loans Held for Sale.** Loans held for sale decreased \$35.2 million, or 17.1%, to \$170.9 million at June 30, 2025 from \$206.2 million at December 31, 2024. This was driven by a decrease of \$39.2 million, or 22.3%, in HELOCs held for sale due to loan sales during the current quarter, partially offset by a \$4.2 million, or 18.3%, increase in SBA loans held for sale.

**Loans, Net of Deferred Loan Fees and Costs.** Total loans increased \$23.7 million, to \$3.7 billion at June 30, 2025 as compared to the balance at December 31, 2024. The following table illustrates the changes within the portfolio:

(Dollars in thousands)	As of		Change		Percent of Total

**Asset Quality.** Nonperforming assets, made up of nonaccrual loans and repossessed assets, increased by \$2.5 million, or 8.9%, to \$30.5 million, or 0.67% of total assets, at June 30, 2025 compared to \$28.0 million, or 0.61% of total assets, at March 31, 2025. Owner occupied commercial real estate ("CRE") made up the largest portion of nonperforming assets at \$8.9 million and \$8.6 million, respectively, at these same dates. One relationship made up \$5.0 million of the totals at both dates but no loss is anticipated. In addition, equipment finance loans made up \$6.0 million and \$5.1 million, respectively, at these same dates, concentrated in the transportation sector. The ratio of nonperforming loans to total loans was 0.81% at June 30, 2025 compared to 0.74% at March 31, 2025.

Nonperforming assets increased by \$1.7 million, or 6.1%, to \$30.5 million, or 0.67% of total assets, at June 30, 2025 compared to \$28.8 million, or 0.63% of total assets, at December 31, 2024, with the composition of nonperforming assets remaining consistent between periods. The ratio of nonperforming loans to total loans was 0.81% at June 30, 2025 compared to 0.76% at December 31, 2024.

Classified assets increased by \$8.2 million, or 20.0%, to \$48.8 million, or 1.07% of total assets, as of June 30, 2025 when compared to the balance of \$40.7 million, or 0.89% of total assets, at March 31, 2025. The drivers of the change were increases of \$3.2 million in Equipment Finance loans, \$2.3 million in commercial and industrial loans, and \$1.6 million in owner-occupied CRE loans. Classified assets increased by \$69,000, or 0.14%, to \$48.8 million, or 1.07% of total assets, as of June 30, 2025 when compared to the balance of \$48.8 million, or 1.06% of total assets, at December 31, 2024. The largest portfolios of classified assets at June 30, 2025 included \$14.5 million of owner-occupied CRE loans, \$8.6 million of equipment finance loans, \$6.5 million of both 1-4 family residential real estate and commercial and industrial loans, \$5.4 million of HELOCs, and \$4.7 million of non-owner occupied CRE loans.

Lastly, in an effort to assist customers in their post-Hurricane Helene recovery and clean-up efforts, at the end of the prior calendar year we granted payment deferrals of up to six months to provide short-term relief to impacted customers. The outstanding balance of these deferrals declined from \$136.0 million at December 31, 2024 to \$18.9 million at June 30, 2025. As stated earlier, after reassessing the remaining exposure and the sufficiency of the ACL in place, in the current quarter we released the \$2.2 million qualitative allocation previously established for the storm upon our loan portfolio which had been established in the quarter ended September 30, 2024. To date, \$27,000 in charge-offs have been recognized which were directly related to Hurricane Helene.

**Allowance for Credit Losses on Loans.** The ACL on loans was \$44.1 million, or 1.20% of total loans, at June 30, 2025 compared to \$45.3 million, or 1.24% of total loans, at December 31, 2024. The drivers of this change are discussed in the "Comparison of Results of Operations for the Six Months Ended June 30, 2025 and June 30, 2024 – Provision for Credit Losses" section above.

Net loan charge-offs totaled \$3.3 million for the six months ended June 30, 2025 compared to \$4.9 million for the same period last year. Annualized net charge-offs as a percentage of average loans were 0.18% for the six months ended June 30, 2025 as compared to 0.25% for the six months ended June 30, 2024.

**Premises and Equipment.** Premises and equipment decreased by \$7.2 million, or 10.3%, to \$62.7 million at June 30, 2025 from \$69.9 million at December 31, 2024. The majority of the change can be traced to the completion of the sale of our two Knoxville, Tennessee branches, which included the sale of \$6.3 million of premises and equipment.

**Deposits.** The following table summarizes the composition of our deposit portfolio as of the dates indicated:

(Dollars in thousands)	June 30, 2025	December 31, 2024	\$ Change	% Change
<b>Core deposits</b>

### Liquidity Management

Management maintains a liquidity position that it believes will adequately provide for funding of loan demand and deposit run-off that may occur in the normal course of business. We rely on a number of different sources in order to meet our potential liquidity demands. The primary sources are increases in deposit accounts, wholesale borrowings and cash flows from loan payments and the securities portfolio.

In addition to these primary sources of funds, management has several secondary sources available to meet potential funding requirements. All qualifying one-to-four family loans, HELOCs, commercial real estate loans, multifamily loans and FHLB of Atlanta stock are pledged as collateral to secure outstanding FHLB advances while commercial construction, indirect auto, and equipment and municipal leases are pledged as collateral to secure outstanding FRB advances. At June 30, 2025, the Company had the ability to borrow \$386.8 million through additional FHLB advances and \$2.8 million through the unused portion of a line of credit with the FRB. At this same date, the Company maintained revolving lines of credit with three unaffiliated banks which totaled \$165.0 million, all of which was unused.

We also classify our securities portfolio as available for sale, providing an additional source of liquidity. Management believes that our securities portfolio is of high quality, of short duration, and the securities would therefore be readily marketable. In addition, we have historically sold fixed-rate mortgage loans in the secondary market to reduce interest rate risk and to create still another source of liquidity. From time to time we also utilize brokered time deposits to supplement our other sources of funds. Brokered time deposits are obtained by utilizing an outside broker that is paid a fee. This funding requires advance notification to structure the type of deposit desired by us. Brokered deposits can vary in term from one month to several years and have the benefit of being a source of longer-term funding. We also utilize brokered deposits to help manage interest rate risk by extending the term to repricing of our liabilities, enhance our liquidity and fund asset growth. Brokered deposits are typically from outside our primary market areas, and our brokered deposit levels may vary from time to time depending on competitive interest rate conditions and other factors. At June 30, 2025, brokered deposits totaled \$290.6 million, or 7.9% of total deposits.

Liquidity management is both a daily and long-term function of business management. Excess liquidity is generally invested in short-term investments, such as overnight deposits and federal funds. On a longer term basis, we maintain a strategy of investing in various lending products and debt securities, including MBS. On a stand-alone level we are a separate legal entity from the Bank and must provide for our own liquidity and pay our own operating expenses. Our primary source of funds consists of dividends or capital distributions from the Bank, although there are regulatory restrictions on the ability of the Bank to pay dividends. At June 30, 2025, we (on an unconsolidated basis) had liquid assets of \$7.2 million.

At the Bank level, we use our sources of funds primarily to meet our ongoing commitments, pay maturing deposits and fund withdrawals and to fund loan commitments. At June 30, 2025, the total approved loan commitments and unused lines of credit outstanding amounted to \$299.5 million and \$797.1 million, respectively, as compared to \$230.5 million and \$712.3 million as of December 31, 2024. Certificates of deposit scheduled to mature in one year or less at June 30, 2025 totaled \$881.5 million. It is management's policy to manage deposit rates that are competitive with other local financial institutions. Based on this strategy, we believe that a majority of maturing deposits will be retained.

### Off-Balance Sheet Activities

In the normal course of operations, we engage in a variety of financial transactions that are not recorded in our financial statements, mainly to manage customers' requests for funding. These transactions primarily take the form of loan commitments and lines of credit and involve varying degrees of off-balance sheet credit, interest rate and liquidity risks. For further information, see "Note 13 – Commitments and Contingencies" in this Quarterly Report on Form 10-Q.

### Capital Resources

HomeTrust Bancshares, Inc. is a bank holding company subject to regulation by the Federal Reserve. As a bank holding company, we are subject to capital adequacy requirements of the Federal Reserve under the Bank Holding Company Act of 1956, as amended and the regulations of the Federal Reserve. The Company's subsidiary, the Bank, an FDIC-insured, North Carolina state-chartered bank and a member of the Federal Reserve System, is supervised and regulated by the Federal Reserve and the NCCOB and is subject to minimum capital requirements applicable to state member banks established by the Federal Reserve that are calculated in a manner similar to those applicable

to bank holding companies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by bank regulators that, if undertaken, could have a direct material effect on the Company's financial statements.

Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

At June 30, 2025, HomeTrust Bancshares, Inc. and the Bank each exceeded all regulatory capital requirements. Consistent with the Company's goals to operate a sound and profitable organization, its policy is for the Bank to maintain a "well-capitalized" status under the regulatory capital categories of the Federal Reserve. The Bank was categorized as "well-capitalized" at June 30, 2025 under applicable regulatory requirements.

HomeTrust Bancshares, Inc. and the Bank's actual and required minimum capital amounts and ratios are as follows:

As permitted by the interim final rule issued on March 27, 2020 by the federal banking regulatory agencies, the Company elected the option to delay the estimated impact on regulatory capital of ASU 2016-13, which was adopted on July 1, 2020. The initial adoption of ASU 2016-13 as well as 25% of the quarterly increases in the ACL subsequent to adoption (collectively the "transition adjustments") was delayed for two years. After two years, the cumulative amount of the transition adjustments became fixed and were phased out of the regulatory capital calculations evenly over a three-year period, with 75% recognized in year three, 50% recognized in year four, and 25% recognized in year five. Starting with the quarter ended March 31, 2025, the temporary regulatory capital benefits have been fully reversed.

In addition to the minimum CET1, Tier 1 and total risk-based capital ratios, both HomeTrust Bancshares, Inc. and the Bank have to maintain a capital conservation buffer consisting of additional CET1 capital of more than 2.50% above the required minimum levels in order to avoid limitations on paying dividends, engaging in share repurchases, and paying discretionary bonuses based on percentages of eligible retained income that could be utilized for such actions. As of June 30, 2025, the Company's and Bank's risk-based capital exceeded the required capital contribution buffer.

Dividends paid by HomeTrust Bank are limited, without prior regulatory approval, to current year earnings and earnings less dividends paid during the preceding two years.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has not been any material change in the market risk disclosures contained in our 2024 Form 10-K.

### Item 4. Controls and Procedures

**Evaluation of Disclosure Controls and Procedures:** An evaluation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934 (the "Act")) as of June 30, 2025, was carried out under the supervision and with the participation of the Company's Chief Executive Officer, Chief Financial Officer and several other members of the Company's senior management. The Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures in effect as

of June 30, 2025, were effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Act is: (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and Chief Financial Officer) in a timely manner and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

The Company does not expect that its disclosure controls and procedures and internal control over financial reporting will prevent all errors and all fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls may be circumvented by the individual acts of some persons, by collusion of two or more people, or by override of the control. The design of any control procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

Changes in Internal Controls: There have been no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2025 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II. OTHER INFORMATION
